Occupational Information

www.acinet.org

America's Career InfoNet is a single point of access for workforce, demographic and economic information. It improves recruiting and hiring efforts by providing wage and trends reports, occupation information and the Career Resource Library offers thousands of helpful articles related to hiring and recruiting. The Job Description Writer assists you with writing better job descriptions.

Making occupational information interactive and accessible for all...

- O*NET OnLine is a web-based viewer that provides easy access and source for continually updated information on skill requirements and occupational characteristics.
- The O*NET system serves and helps businesses and human resource professionals make informed employment, training, and business development decisions.
- The O*NET database is a comprehensive source of descriptors, with ratings of importance, level, frequency or extent, for more than 950 occupations that are key to our economy.
